

Patch Release 2.1.3.370 (Released 4/27/2010)

Purpose of the Patch was to address the following bugs:

- Change Primary Person on an account via the Desktop
- Display canceled registrations in the admin receipt and email receipt when ALL items in the cart are free

Change Primary Person on a account via the Desktop

When attempting to change the primary person on an account there was an error that would prevent you for saving this request. We have fixed this issue which now allows you to switch the primary persons on an account as expected.

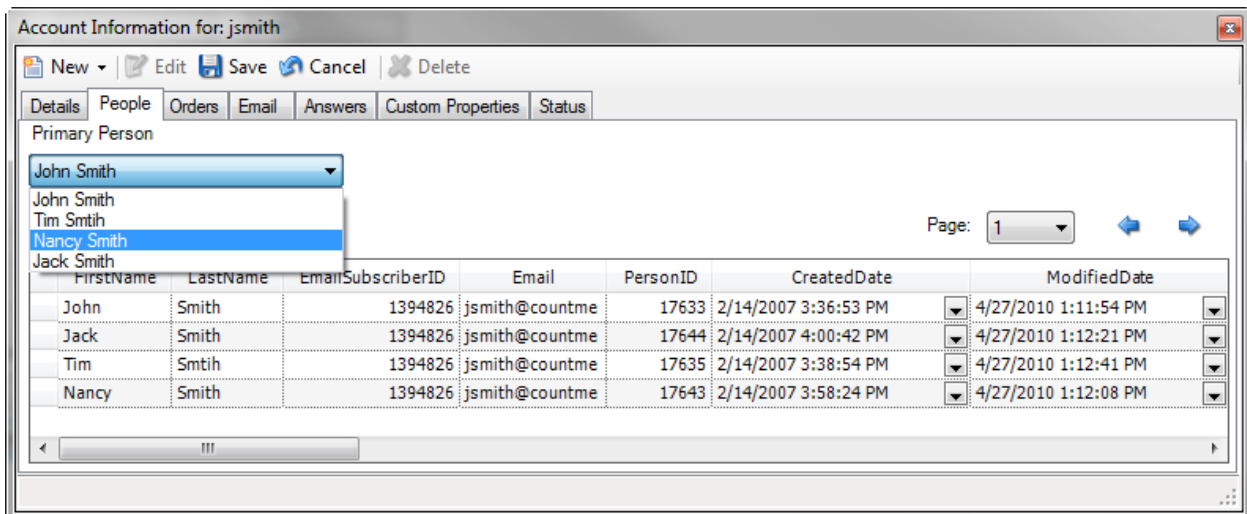

Figure 1.1: Changing the Primary Person on a account

Display canceled registrations on the admin receipt and email receipt when ALL items in the cart are free.

When printing or e-mailing an order receipt which includes all free programs and has a canceled registration, the receipt would not display the word "Canceled" (see figure 2.1 below). This issue made it difficult to identify if any orders had been canceled to those reading the receipt. This issue has now been fixed to display the word "Canceled" on any order receipts that include a canceled registration and have all free programs (see figure 2.2 below).
